

PRESS RELEASE

Lumberg Welcomes Twelve New Trainees

Schalksmühle/Cloppenburg, 29.08.2017. For precisely 84 years, the globally-operating manufacturer of connectors and contact systems with in-house development and production facilities has been headquartered in Schalksmühle in Germany's Sauerland region. More than 1,000 young people have completed an apprenticeship in a variety of occupational fields in Germany at the family business which currently is run by the third generation. This year, Lumberg welcomes a further twelve new trainees, four of whom at the headquarters in Schalksmühle and eight at the company's largest production facility in Cloppenburg.

In Schalksmühle Kathrin Dreker and Can Levent Lehmann will start training to become an industrial management assistant, Jonathan Voß decided to train for the profession of a technical product designer and Dominique Wohlpart will take up an apprenticeship as a toolmaker.

The trainees received a warm welcome yesterday at the respective sites. For a knowledgeable and sound professional future, the trainees will go through a regular rotation system to acquaint themselves with the different fields, departments and locations, in line with their respective occupational profile. They will familiarize themselves with relevant matters that relate to the products made by Lumberg and learn about working in different team structures as well as the flows of a modern industrial operation.

About Lumberg Group:

The Lumberg Group, headquartered in Schalksmühle, Germany, ranks among the leading providers of connector and interconnect systems. Core areas of expertise include R&D, manufacturing and the worldwide sales of electromechanical and mechatronic components. For more than 80 years now, the Group's skills have broadened from manufacturing connectors and challenging micro-contact elements, to developing complex mechatronic assemblies, to customer-specific engineering and technical design services for all industries. In-depth application expertise led to strong partnerships in the automotive, home appliance, building technology, communications and consumer electronic industries. Family-run in the third generation, the company has a global workforce of around 1,200. Subsidiaries in Europe, America and Asia form a dense sales network. In 2016, the Group's turnover totaled some Euro 125m. Over 20,000 catalog and customized products are proof of the company's efficiency.
