

PRESS RELEASE

Over 25 Years of Top Distribution: Lumberg Presents Award to JIT

Schalksmühle, 21.11.2018. The partnership between Lumberg, the owner-managed manufacturer of high-quality connectors and electromechanical components, and JIT electronic GmbH, the distributor specialized in connectors based in Bergkirchen near Munich in southern Germany, began 26 years ago. In 1970 – German television viewers were able to receive the news "Tagesschau" from ARD and "Heute" from ZDF in color for the first time in March – the first Lumberg products were listed.. Andreas Aschenbrenner, the founder of the company, which has been run as a "specialist house for connectors" since 1991, was – and still is – the first point of contact.

Lumberg honors this exceptionally long-standing and close business relationship with the "Recognition of Excellence" award, presented for the eighth time since 2012. Meike Schmidt, managing partner of the Lumberg Group, welcomed the owner of JIT Andreas Aschenbrenner together with his wife Gabriele at the Lumberg Group's exhibition stand in Munich. Together with Christian Forner, Head of Global Sales of the Lumberg Group, and Peter Maffei, Sales Manager Global Sales Distribution of Lumberg Connect, she presented the Lumberg-Icon, exclusively polished and engraved for JIT, at the world's leading trade fair for electrical engineering, which takes place every two years – right in front of the large colored Lumberg-Icon.

About Lumberg Group:

The Lumberg Group, headquartered in Schalksmühle, Germany, ranks among the leading providers of connector and interconnect systems. Core areas of expertise include R&D, manufacturing and the worldwide sales of electromechanical and mechatronic components. For 85 years now, the Group's skills have broadened from manufacturing connectors and challenging micro-contact elements, to developing complex mechatronic assemblies, to customer-specific engineering and technical design services for all industries. In-depth application expertise led to strong partnerships in the automotive, home appliance, building technology, communications and consumer electronic industries. Family-run in the third generation, the

company has a global workforce of around 1,300. Subsidiaries in Europe, America and Asia form a dense sales network. In 2017, the Group's turnover totaled some Euro 136,6 m. Over 20,000 catalog and customized products are proof of the company's efficiency.
